Introduction to BRIDG

½ day course

Language: English

The BRIDG Model is a Domain Analysis Model (DAM) that is being developed through a collaborative effort of stakeholders from CDISC, the HL7 Regulated Clinical Research Information Management Technical Committee (RCRIM TC), the National Cancer Institute (NCI), and the US Food and Drug Administration (FDA).

This half-day course will cover:

- A brief history of BRIDG
- A quick basic UML modelling tutorial
- An introductory look at the BRIDG model

Prerequisite: None
