[Sponsorship Information](#)

Dear Guest,

Welcome to the February newsletter. It seems that the last few weeks have flown by and CDISC communications has been awash with activity. [The Blog](#) has a number of key updates about our activities and news from the FDA, make sure you check it regularly. In this month's newsletter, we focus on the latest standards developments and news about the European Interchange.

If you have any comments or would like to contribute an article to the CDISC Newsletter, please contact [AJ de Montjoie](#).

[Protocol Representation Model Version 1.0](#)

The release of this model has given CDISC many reasons to celebrate. There are a number of materials available for you to read as well as the standard itself:

1. [Protocol Representation Model Version 1.0](#)
2. [Protocol News Article by Julie Evans](#)
3. [Reasons to Celebrate on the CDISC Blog](#)
4. [The Protocol Representation Model on the CDISC Blog](#)

We welcome your feedback on the articles and the blog.

[PGx SDTM Domains Review Package](#)

The CDISC Pharmacogenomics team are pleased to announce the release of a limited review package for new PGx SDTM domains. You can read the [full article from the team here](#) and find the [review package in the Members Only](#) area of the CDISC website.

[Terminology Update & Public Review](#)

New information has now been posted on the [Terminology page](#) of the CDISC website and you are invited to take part in the review process. The public review will close on 26 February 2010.
