

## **English Speaking User Group Face to Face Meeting**

### **The practical use of the CDISC standards - define to ADaM**

13th July 2010, University of Brunel, Uxbridge

Sponsored by Medidata

This meeting will focus on the practical use of the CDISC standards starting with define.xml through to ADaM / SDTM focussing on a standard domain (VS - vital signs). The day will feature a number of presentations from users at sponsor companies, CROs and software vendors describing experiences of implementing the standards. The emphasis of the day will be on the practical aspect rather than the theoretical.

This meeting will follow the same successful format of previous USER forums with a mixture of presentations and breakout sessions intended to facilitate networking and stimulate open discussion and lively debate.

The day will include:

- Update and news from the CDISC ESUG committee
- Presentations on:-
  - Define.xml
  - CDASH
  - SDTM
  - ADaM
  - CDISC Share
  - Data cleaning strategies using ODM
- Breakout sessions, offering users the opportunity to exchange ideas and network on topics of shared interest

The meeting will take place at the University of Brunel, Uxbridge on the 13th July from 10 AM to 4 PM UK Time.

Please note that the deadline for registration is 6th July

**WE WOULD LIKE TO THANK MEDIDATA FOR THEIR SUPPORT IN HOSTING THIS EVENT.**
