CDISC International Interchange This Month!

Asia-Pacific Interchange Abstracts Due This Week!

The CDISC International Interchange is coming in less than a month! Join us on 22-26 October 2012 in Baltimore, MD. Online registration closes on Friday, 12 October 2012. If you have not registered, register now through the following link.

What will you miss if you do not attend?

- Keynote presentation by Dr. Janet Woodcock, FDA/CDER
- Keynote presentation by Ann Martin, IMI
- Launch of the Coalition for Accelerating Standards and Therapies (CFAST), an initiative of CDISC and the Critical Path Institute to speed the development of standards for specific therapeutic/disease areas.
- Panel discussions by various stakeholders on what disease area standards mean to them and what we have learned thus far in developing therapeutic/disease area standards.
- FDA panel discussions and more details on CDISC BRIDG and SHARE (Shared Health and Research Electronic Library).
- Presentations on where we should be going by representatives of One Mind for Research, DataSphere and the CEO Roundtable on Cancer, TransCelerate Biopharma, TX eHealth Alliance, Joseph H. Kanter Family Foundation and the Learning Health Community and the CTO of CDISC!

Please click here for the program to see the rest of the opportunities.

In addition, the CDISC Advisory Board (representatives of each CDISC Platinum Member Organization) will meet on 23 October from 3-6 pm. If you are not a member of CDISC, you can join CDISC, support the standards work and save 40% on your meeting and public courses registration.

Why Should You Attend?

If you are not yet convinced you should attend, please click here to see more reasons.

And, follow this link to view the highlights from our most recent webinar on the CDISC International Interchange.

The CDISC International Interchange is not just a conference! It is a combination of presentations, panel discussions and educational sessions. It is a place to meet and interact with regulators, professionals and experts in clinical research and the global healthcare industry. Our educational courses, offered on Monday and Tuesday, 22 and 23 October, will train attendees on how to implement the CDISC standards within their work environments.

Another chance to respond, click here to register! Don't forget to make your hotel reservations through the following link; the CDISC discounted rate code is provided here.
Our CDISC Interchanges do not stop in Europe, Japan and the United States, the Inaugural CDISC Asia-Pacific Interchange (CAPI) will be offered in Singapore in February 2013! The CDISC Asia-Pacific Interchange will be held on 20-21 February and Educational Courses will be offered on 18, 19 & 22 February 2013. The program committee is accepting abstracts for the conference presentations. The deadline for submission of abstracts is extended till Friday, 5 October 2012.

The Interchange is intended to encourage those in the biomedical research arena in the Asia Pacific region to engage with CDISC directly by participating in this educational networking event. Partake in this interchange and gain knowledge on how CDISC, the common language for global clinical research, works! Anyone interested in medical research expansion in the Asia Pacific region can benefit from attending this conference.

The European CDISC Interchange 2013 will follow the Asia-Pacific Interchange! The CDISC European Interchange will be held on 22 to 26 April 2013 in Bad Nauheim, Germany. Details on abstracts, sponsorship and exhibitor opportunities are coming soon; stay tuned to the CDISC website.

Strength Through Collaboration
