

**Welcome Address: Reflecting on the Last 25 Years**

欢迎词：回顾过去的25年

Chris Decker, CDISC CEO

# Meet the Speaker

Chris Decker

**Title:** CEO & President

**Organization:** CDISC

Widely recognized in the industry, Chris has decades of experience leveraging technology and standards to optimize processes and help industry drive innovation forward. He has extensive experience in executive roles across software development, clinical research, and consulting and his 20-year engagement with CDISC includes roles as a volunteer, implementer, and board member. Chris is passionate about leading CDISC towards a technology-based standards future and expanding the organization's global impact in clinical research standards.

# Realizing the CDISC Mission

*CDISC's vision is to amplify data's Impact to advance research by creating connected standards across the study information lifecycle to enable accessible, interoperable, and reusable data for more meaningful and effective research*

## CDISC Strategic Plan & Roadmap

### Expand & Connect

Expand, Connect, and Digitize Our Standards

### Enable & Automate

Reduce Variability, Enable Interoperability, and Increase Automation

### Engage & Adopt

Focus on Community Needs and Deliver Business Value

### Strategic Goal:

Expand and Enable standards-driven automation across end-to-end study information lifecycle from study design through results.

CDISC will expand and realize the original 360 vision.

# **CDISC 360i: Transforming the Way we Develop and Use Standards to Enable Standards- Driven Automation**

## Today's Clinical Research Landscape:

- Study Design, Data Collection, Tabulations, and Analysis often operate in disconnected functional and data silos
- Manual interpretation of protocols delays study setup and is error prone
- Lack of interoperable, digital standards limits automation

# 360i: Next Step to Realizing Standards Driven Research

Intelligent protocol-driven research to improve patient outcomes

# Example Use Cases: Digital Connected Information Accelerating Trials and Increasing Quality

**Current State**  
*Siloed and manual handoffs  
across the study lifecycle*

- Manual, document-based study design
- 6-8 months to start up a study
- Labor intensive and error prone

**Future State**  
*Upfront digital design information  
driving downstream activities*

- AI-driven intelligent study design informed by structured digital information
- Easier adoption by sites and patients
- Automated generation of study build, specifications, and data/analytical artifacts

**Benefits**

- ✓ Focused study design leading to higher quality decisions
- ✓ Reduce 'start up' by 50-75% accelerating time to study start
- ✓ Significant reduction in manual transcription errors
- ✓ Easier to enroll and better patient experience means less dropouts
- ✓ Significantly reduce cost of recruitment
- ✓ Save \$1.5M per study
- ✓ Accelerate study execution by eliminating or reducing effort
- ✓ Higher quality outputs

## Study Setup

## Patient Recruitment

## Study Amendments

- Cycles flat over 10 years, >50% screening failures, >40% dropout
- Most critical and expensive area within clinical trials

- Digital information can help assess patient burden and feasibility
- More structured and standardized IC/EC targets the right patients

- Average 4 amendments per study
- Each amendment costs ~\$500K
- Labor intensive and error prone

- Better study design reduces amendments
- Digitally linked information enables impact analysis of proposed change
- Automated implementation of changes reduces efforts by 50%

# What Will 360i Deliver?

- Linked and executable metadata from study endpoint through analysis
- Includes concepts, rules, & sample data

## Standards Packages

- Instructions to build standards packages
- Recipes to implement packages within your processes

## Implementation Cookbooks

- Technology enabled example leveraging packages & recipes
- Library of community based open-source tools

## Example Implementations

Change is the only constant in life.  
One's ability to adapt to those changes  
will determine your success in life.

Benjamin Franklin
