- Training in 10 languages
- Diverse instructor background

### ONLINE TRAINING

1,229 new online training users

- 291 modules and 33 bundles served
- 3,433 total online users
- New accounts created in 42 countries

\$117,015 in credited courses

- CDISC members have received over 1,090 course modules as member benefits

### WEBINARS

12 Members Only Webinars

- 25 total panelists
- 1,298 total attendees

14 Public Webinars

- 44 total panelists
- 814 total attendees

## ATTENDEE FEEDBACK

### ATTENDEE #1

ADAM

"The instructor is very open to the questions and very knowledgeable with extensive experience. She explains things very clearly and not only did I learn the material from the handouts but I was also enriched with more insights that the instructor shared."

### ATTENDEE #2

CDASH

"Instructor was very passionate... The course had a good mix of theory and practical... The instructor explained the materials very well and made them easy to understand. I have come away with a very good understanding of the CDASH standards and have learned enough to hopefully begin to implement the standards in our company."

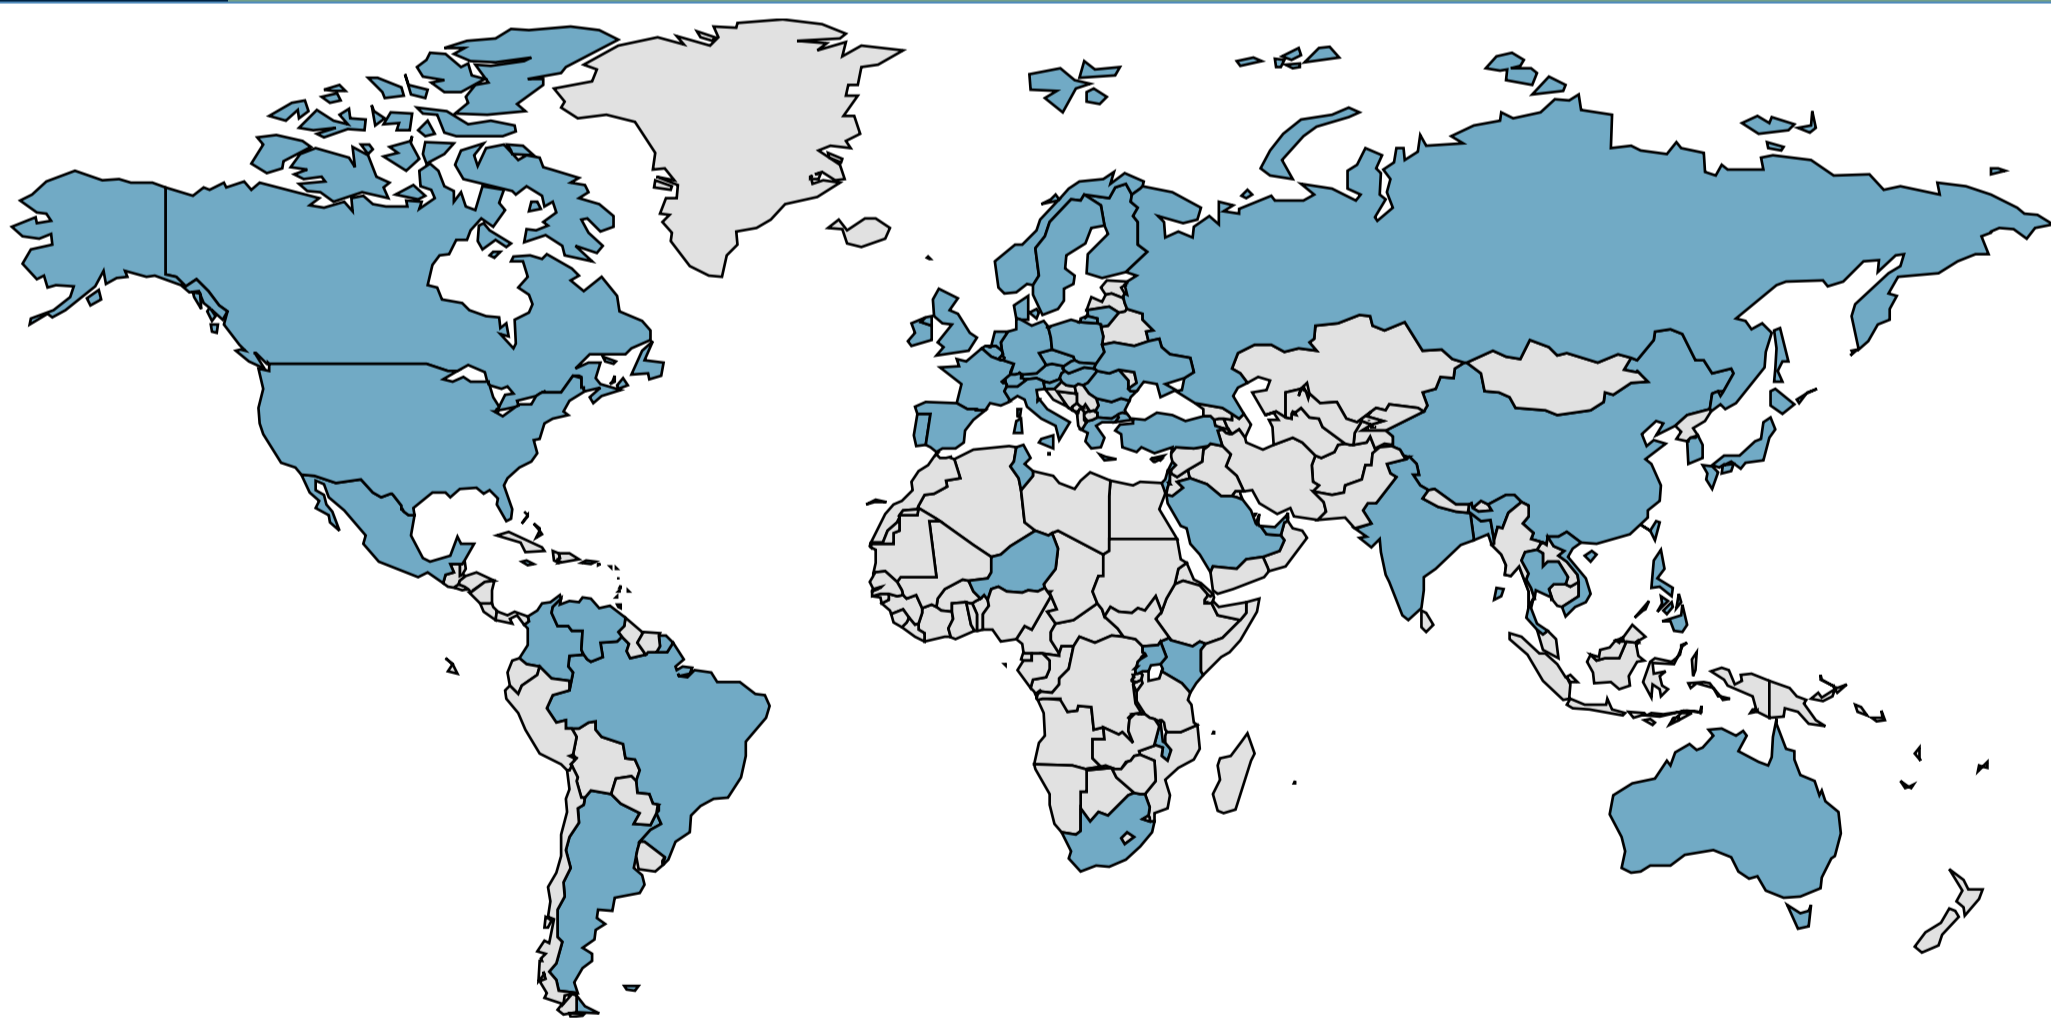

### ATTENDEE #3

SDTM

"The course provided quite a lot of information. The real life examples were invaluable for understanding how the various parts of the standard work together, and understanding the nuances that are not immediately apparent from the documentation."

## LOCATIONS WHERE CDISC TRAINING WAS ACTIVE IN 2017

## 2018 PUBLIC COURSE SCHEDULE

| January                   | February      | March   | April                     | May                            | June                                  |
